TECHNICAL DATA SHEET

SEALANT, ADHESIVE & FILLER

MULTI 3 IN 1

©Staerk
The bonding power

It is a single part polyurethane product, that cures by reaction with atmospheric moisture to form a durable and weather-resistant elastomer with high adhesion strength. This product is the most versatile and can be used on almost any surface, making it perfect for all applications. This gives you the benefits of an adhesive, sealant and filler all in one thus simplifying the need to have multiple products.

RECOMMENDED USE

Doors, Windows & Floors

- Sealing and waterproofing glass to windows and door frames.
- Waterproofing and bonding of glass shower enclosures.

Kitchens & Bathrooms

- Creating waterproof seal between sinks and benchtops.
- Joints between benchtops and splashbacks or tiles.
- Sealing between cabinetry and walls or floors.

Exterior Cladding & Block Works

- Joins on Bricks or Blocks to exterior cladding or windows.
- Repair of cracks in high movement areas for bricks or concrete.

Plumbing, Roof & Gutters

- For sealing and bonding of joints between flashings and roof panels or lap joints between roof panels itself.
- Creating lasting seal on all outside gutters and down pipes connections.

Sky Lights, Basements & Precast Panels

- Sealing and bonding the glass to skylight frames.
- Structural assembly glazing for skylights.

BENEFITS

Indoor / Outdoor

This is a great all round product with its high UV and waterproofing properties can be used with ease for inside and outside your home.

High Strength

Some of the best features of this premium product is its high elasticity and excellent adhesion to most surfaces in your home.

Paintable

Perfect for use as a gap filler and is ideal for water exposed areas that need to be painted like bathrooms or exterior cladding.

Guarantee

Against cracking, peeling or crumbling under proper usage. We give the one of the longest and comprehensive guarantees in the industry.

SUITABLE FOR

Multi 3 in 1 Polyurethane technology is the only tool that will satisfy all your needs for maintaining and repairing your house. It will glue, seal or fill any material:

- GLASS, ALUMINIUM, METALS
- WOOD, MDF, PARTICLE BOARDS
- STONE, MARBLE, POTTERY
- PVC, MOST PLASTICS, PORCELAIN
- CONCRETE, BRICKS, CERAMICS

APPLICATION

Cut off the top of the cartridge, position the threaded adaptor to the cartridge. Cut the threaded adaptor at an angle corresponding to the joint width. Place the cartridge into the gun and inject the joint with the sealant.

Apply sufficient pressure to the sealant to ensure good penetration and adhesion to the joint sides. The applied sealant should be smoothed immediately with a wet spatula or jointer to clean off excess sealant.

Stærk 3 IN 1 is not suitable for bonding polyethylene, polypropylene, Teflon, silicon or polystyrene based materials.

PACKAGING

300ML Cartridges , 24 Cartridges per box

STORAGE

Protect from freezing, store in a cool dry place at room temperature.
Product must be used within 24 months of purchase.
