# TECHNICAL DATA SHEET

## STRONG AS NAILS --- ORIGINAL

**©Staerk**  
The bonding power

This special solvent based adhesive is formulated with high strength and water resistant properties in mind. Its ability to bond to almost any building materials and withstand the thermal movement of the building itself, reduces the need for many mechanical fasteners and makes the process faster and easier. This product does not drip, sag or string and works well for indoor and outdoor use.

## RECOMMENDED USE

### Bonding Timber

- Creates strong flexible bond between wall frames and concrete base.
- Fixing different types of cabinetry to wall and floor.
- Assembling, gluing and doweling wooden products.

### Wall & Ceiling Panels

- Bonding plasterboard or wooden paneling to house frames.
- Gluing shower liners to bathroom walls.
- Gluing trims, skirting and architraves to interior panels.

### Flooring

- Fixing various types of particle boards or cement sheeting to floor joists.
- Repairing different types of loose floor tiles.
- Assembling and bonding of outside decks and wooden stairs.

### Door & Windows

- Bonding and fixing doors and window frames to exterior or interior walls.
- Repair old and cracked window frames or doors.

### Exterior Cladding

- Bonding of exterior cladding to timber battens.
- Repairs of cracks and holes in brick or block work.
- Fixing different fixtures to exterior cladding.

## BENEFITS

### High Strength

High tensile strength and forming a strong bond with most building materials is the main feature of this versatile product.

### Indoor / Outdoor

It has excellent weather resistant properties and it is able to perform great in different temperatures. It can be used in any environments.

### Less Mechanical Fasteners

Low shrinkage and bonding to many surfaces makes it absorb the thermal movement. With this you can use less mechanical fasteners.

### 20yrs. Guarantee

Against cracking, peeling or crumbling under proper usage. We give the one of the longest and comprehensive guarantees in the industry.

## SUITABLE FOR

Strong as Nails Original Construction adhesive is a powerful multi purpose bonding system that will adhere to many different materials:

- WOOD, PARTICLE BOARD, PLYWOOD
- PLASTER BOARD, FIBRE CEMENT
- ALUMINIUM, METALS,
- BRICKS, CONCRETE, MASONRY
- CERAMIC, PORCELAIN, STONE

## APPLICATION

Cut off the top of the cartridge, position the threaded adaptor to the cartridge. Cut the threaded adaptor on an angle to achieve needed opening. Place the cartridge into gun and inject the joists, studs or other surfaces with the adhesive.

Apply sufficient pressure and make bead of adhesive to full length of the material. Push the two surfaces together (within 5 mins) and fix them with clamps or mechanical fasteners to achieve full contact. Let the adhesive set for at least for 24 hours before removing the clamps or temporary mechanical fasteners.

Stærk Strong As Nails is not suitable for bonding mirrors and solvent sensitive materials like vinyl laminated boards, Gib Vinyl®, ABS and polystyrene.

## PACKAGING

300ML Cartridges, 24 Cartridges per box

## STORAGE

Protect from freezing, store in a cool dry place below 25 C temperature to prolong its service life.

Need to be protected from naked flame or high heat sources.

Product must be used within 24 months of purchase.
